EDUCATION

University of Colorado Boulder, Engineering Honors Program

Boulder, CO

Bachelor of Science – Mechanical Engineering

Aug. 2024 – May 2028

Relevant Coursework: Thermodynamics, Statics and Structures, Mechanics of Solids, Materials Science, Differential Equations, Linear Algebra, Calculus 3, Physics 2

Activities: CU Formula SAE, CU New Venture Challenge, CU Fly Fishing Club Officer, Alpha Tau Omega Executive Board

AWARDS

Tensentric Human-Centered Design Award for Stable Stove

September 2024 – December 2024

- Designed and produced a new camping stove for cooking on uneven ground
- Led CAD and prototyping phases within a team, using Solidwork and OnShape
- Competed and won at the 2024 Collegiate Engineering Design Expo, featuring 89 teams and over 500 students
- Awarded as the team which "Best Optimized User Experience"

ILF Youth Innovation Contest Bronze Winner

May 2021 - August 2021

- Developed wireless electric car charger in a team of three, including prototype, cost, and market assessment
- Built fully accurate simulations of large-scale manufacturing for both quantitative modeling and 3D simulations
- Presented to prominent STEM leaders from over 80 countries, placed 3rd out of 68 high school and college teams

EXPERIENCE

Powertrain Design – CU Boulder Formula SAE

September 2024 – Present

- Created and manufactured a custom powertrain for a student-built race car, using techniques like CAD and FEA
- Designed specific elements such as the chain guard and spacers using SolidWorks, CNC milling, lathes, and drills
- Successful design, manufacture, and assembly of entire vehicle in a 9-month time frame, maintaining design cohesion between several subteams throughout timeline
- Competed in the 2025 FSAE championship in Michigan, placing 31st out of 120 international entries

Declassify.ai Co-Founder

November 2025 – Present

- Designing and building a new AI-powered course registration tool for students and universities, integrating class times, professor ratings, progress towards major, and connections with classmates
- Leading UI design and front-end development, as well as funding pitches and investor outreach
- Currently beta testing with initial group of students

Server – Topgolf

May 2025 – August 2025

- Order-taking and transport of food, beverages, and necessary kitchen items throughout the establishment
- Reliable, professional communication with customers, team members and managers to complete tasks and fulfill duties

Caregiver for Neighbor with Cerebral Palsy

June 2020 – August 2024

- Before and after-school care for a local woman with Cerebral Palsy, including lifting her from bed to wheelchair and back, as well as other caregiver responsibilities
- Over 2500 care-giving visits fulfilled during high school in reliable, courteous fashion

Peer Tutor for Students in Computer Science

October 2022 – May 2024

- Tutor for students in AP Computer Science classes such as AP Computer Science Principles and AP Computer Science Java
- Use of Java, Python, and JavaScript mastery to aid students in tasks such as app-creation and code debugging

Varsity Rowing, DC National Rowing Club

August 2021-June 2024

- Multiple medal-winning rower and across over 30 competitive races
- Two-time National Championship qualifier, consistently among top four teams in the Mid-Atlantic region

TECHNICAL SKILLS

Microsoft Office, SolidWorks CSWA Certified, MATLAB, Java, Python, JavaScript, OnShape, LaTeX, FEA, Maryland State Certified Biliterate (Spanish), Mechanical Design
